ZoneAlarm Pro Firewall

ZoneAlarm Pro Firewall is the powerful first line of defense to block hackers and intruders from accessing your PC. Its award-winning firewall protection monitors programs for suspicious behavior stopping new attacks that bypass traditional antivirus.

Advanced Firewall

Monitors programs for suspicious behavior, spotting and stopping new attacks that bypass traditional antivirus protection.

Two-Way Firewall

Makes your PC invisible to hackers, and stops spyware from sending your data out to the internet.

Identity Protection

Alerts you if there are unauthorized changes in your credit files.

System Requirements

• Anti-Phishing Add-on
Google® Chrome all versions
• Microsoft® Windows® 7, 10 All versions
32-bit / 64-bit, 2 GB RAM
2 GHz or faster processor
1.5GB of available hard-disk space
• Microsoft .NET framework
Version 3.5 or later
Note: If a supported Microsoft .NET Framework is not installed, it will be installed with ZoneAlarm 2019
• Compatibility
ZoneAlarm 2019 is only compatible with MS Windows Defender, and is not compatible with any other antimalware software.

Same technology used to protect Fortune 500 companies and home PC users.

FIREWALL

Two-way Firewall

Stops Internet attacks at the front door and even catches thieves on their way out. Our two-way firewall proactively protects against inbound and outbound attacks while making you invisible to hackers.

• Threat Traffic is monitored and blocked – inbound and outbound.
• Full Stealth Mode makes you invisible to hackers.
• Kill Controls instantly disable malicious programs.

Advanced Firewall

No product is 100% effective against viruses or spyware. ZoneAlarm's advanced firewall monitors behaviors within your computer to spot and stop even the most sophisticated new attacks that bypass traditional antivirus and security suites.

• OSFirewall™ Monitors programs for suspicious behavior – spotting and stopping new attacks that bypass traditional anti-virus protection.
• Advanced-access Protection targets and defeats new, advanced attacks that other firewalls miss, such as raw data access, timing, and SCM and COM attacks.
• Zero-hour Protection prevents silent outbreaks from gaining system access – before other security programs can even detect the threat.
• Application Control uniquely shields your operating system during start-up, before most security products have even loaded.
• Early Boot Protection uniquely shields your operating system during start-up, before most security products have even loaded.

Additional Layers

Multiple layers of advanced protection provide unsurpassed security.

• Wireless PC Protection shields you from hackers, identity thieves and other online threats when you connect to an unsecured network.
• Automatic Wireless Network Security detects wireless networks and automatically applies the most secure firewall protection setting.
• DefenseNet™ provides real-time security updates, responds quickly to breaking threats and leverages threat data from millions of users – protecting your PC from the latest attacks.

IDENTITY & DATA

Identity Protection Services

Identity theft can happen to anyone, anywhere. ZoneAlarm delivers superior PC-based protection and exclusive data encryption, and also offers offline identity-protection services.

• Daily Credit Monitoring and Fraud Alerts include daily credit reports with email alerts. You'll be notified of any changes in your credit reports – which are often an indication of identity theft (US only).
• Victim Recovery Service provides free telephone counseling to guide identity-theft victims through resolution and recovery (US only).

SUPPORT

• Free upgrades for 12 months. You'll be notified automatically when a free new version is available.
• Free customer support includes in-depth information, forums and online LiveChat 24/7.
• 30-day guarantee: Satisfaction guaranteed or you'll get your money back.
